

DE MONTAGE

FUNKTION UND BATTERIEWECHSEL

1. Bei Aufleuchten der Batterie-zustandsanzeige müssen die Batterien umgehend gewechselt werden.
2. Vor jeder Fahrt vergewissern, dass die Batterien nicht leer sind!
3. StVZO geprüft und in Deutschland für den Straßenverkehr zugelassen.
4. Die Lampen müssen fest mit dem Fahrrad verbunden sein und die Lichtverteilung darf nicht verdeckt sein.
5. Bei Ausfall der Leuchtdiode muss die gesamte Leuchteinheit ausgetauscht werden.

Anleitung sorgfältig aufbewahren!

EN MOUNTING

FUNCTION AND BATTERY CHANGE

1. When the battery level indicator light turns on, the batteries must be changed immediately.
2. Before every use of the light, please make sure the batteries are not flat.
3. Tested and approved in line with German national road traffic regulations.
4. The lamp must be firmly connected to the bicycle. The light distribution must not be obstructed by any part of the vehicle.
5. Upon failure of the light-emitting diode, the complete lighting unit needs to be exchanged.

Keep for future reference.
