

RoyalBaby
SAFER RIDING • BETTER LIFE

The first time your child is using a bicycle, even the smallest kids feel large.

*Easy Rider! On tour with
the bicycle. Also for your children
the feeling of freedom is
irresistible.*

ROYALBABY

SAFER RIDING - BETTER LIFE

From a Children's perspective the world looks different. Kids see different, they feel different. They also have different abilities, needs and preconditions than adults. Kid's bikes from RoyalBaby are ideally prepared for their specific requirements, which children have on a bicycle.

Safety is the most important aspect for RoyalBaby and characterises all aspects of the bicycle: child-oriented brake levers with a short lever distance for small hands, above average wide tires for comfort and riding stability or by German law approved reflectors are just three examples, which show with which attention to detail and high understanding RoyalBaby produces the bikes.

While the high security standards will make the parents happy, optical integrated baskets, bells or bottles, which usually don't exist on kid's bikes, will make children's eyes shine.

Wide tires ensure high riding stability

Brakelevers with short lever distance

SOLUTIONS FOR KIDS

Protection through closed chain case

extra wide and stable training wheels

TOPSELLER ROYALBABY

Established in 2009, RoyalBaby became quickly one of the best sold brands for kid's bikes in the USA. The wide and very positive customer feedback in the USA is a clear characteristic for the quality and innovative product features, which make cycling for kids easier and safer at the same time. From 2017 RoyalBaby is finally also available in Europe.

In Europe kid's bikes from RoyalBaby are only available without quick release.

The Space Shuttle is the Ferrari of the product range of RoyalBaby, which will get envious glances not only at the Kindergarten.

Thank's to the magnesium frame and wheels the weight is only 8.7 kg!

SPACE SHUTTLE

The Space Shuttle not only features a unique design but also a very light frame. This is possible due to the use of magnesium which also makes this bike extremely comfortable and stable. All of which combined with disc brakes (front and rear) - just like in those cool mountain bikes!

extra wide tires (2.4")
magnesium frame
magnesium rims
120 mm disc brakes
training wheels with magnesium stays
chain guard
bell, mounting tools

*„Me, too small to cycle!? No!”
With the Space No. 1 also the
youngest manage the first
pedals on the bike.*

*Light and
strong aluminium
frame!*

*Attention Scallywags!
No matter if you ride on a bicycle
lane or rush over a dirt road, the
Freestyle bike is made for
adventurers like you!*

*Available in a
wide variety and
numerous sizes.*

FREESTYLE

The perfect bicycle for all little adventurers. No matter which path your offspring takes, the Freestyle bike, which has been designed based on the geometry of mountain bikes, will take them anywhere. The decision for the kid won't be an easy one: blue, red or better green? Don't forget: the Freestyle bike is also available in 14"!

- extra wide tires (2.4")
- training wheels
- chain guard
- front rim brake
- water bottle, bottle cage,
- bell, mounting tools
